

Press Release

MOBIEN TECHNOLOGIES JOINS FORUM NOKIA ENTERPRISE ZONE

Application Developer Receives Specialized Nokia Marketing Support, Access to Business Development Opportunities

Pune, Wednesday, October 03, 2007 :

MOBIEN TECHNOLOGIES , a leading **ENTERPRISE MOBILITY DEVELOPER**, today announced that it has become a member of the Forum Nokia PRO Enterprise Zone, a support program for software developers that want to work more closely with Nokia Enterprise Solutions, the arm of Nokia helping businesses and institutions worldwide improve performance through extended mobility. As a member of the PRO Enterprise Zone, **MOBIEN TECHNOLOGIES** will receive exclusive technical, business development and marketing support enabling it to engage Nokia Enterprise Solutions and its customers with offerings that complement Nokia's enterprise product line.

The PRO Enterprise Zone program will promote application and solution development for Nokia Series 80- and S60-based business range devices. To qualify for the program, developer companies must have experience in developing enterprise grade business solutions and demonstrated capabilities in the enterprise market in addition to demonstrated Nokia competencies.

PRO Enterprise Zone members will receive regional Nokia Enterprise Solutions business development and marketing support, enhanced opportunities for product loans and exclusive previews of Nokia Enterprise Solutions technology roadmaps.

By becoming an Enterprise Zone member, **MOBIEN TECHNOLOGIES** will experience a strong working relationship with the Enterprise Solutions business unit that will help the company optimize its solutions for Nokia's enterprise phones and help ensure close integration of its software with Nokia's devices.

Mr. Ajit Gokhale, CEO, MOBIEN TECHNOLOGIES adds that Mobien Technologies targets the ASEAN market with enterprise mobility solutions built around its award winning iNotify platform. Some of the verticals that **Mobien Technologies** provides mobility solutions are Manufacturing, Chemicals, Insurance, BFSI, Logistics etc. Mobility solutions developed by Mobien Technologies can be integrated with several ERP platforms such as SAP, Oracle Apps, MS SQL, Oracle etc.

The Forum Nokia PRO Enterprise Zone program was developed by Forum Nokia, Nokia's global developer support program as part of its Forum Nokia PRO membership offering. Launched in 2004, Forum Nokia PRO has enlisted more than 400 advanced developer companies worldwide.

About Nokia Enterprise Solutions

Enterprise Solutions is dedicated to improving the performance of businesses and institutions by extending their use of mobility from mobile devices for voice and basic data to secure mobile access to and use of their content and applications. Available solutions range from business-optimized mobile devices for end users to a broad portfolio of IP network perimeter security

gateways and mobile connectivity offerings. These solutions include mobile email and Internet, virtual private networks, or VPNs, and firewalls, all designed to help companies mobilize their workforces while ensuring the security and reliability of their networks.

About Forum Nokia

Nokia's global developer community, Forum Nokia, connects developers to tools, technical information, support, and distribution channels they can use to build and market applications around the globe. From offices in the U.S., Europe, Japan, China, and Singapore, Forum Nokia provides technical and business development support to developers and operators to assist them in achieving their goal of successfully launching applications and services to consumers and enterprises.
